## Education

### Kadir Has University

Bachelor of Engineering in Computer Engineering

2024 - 2025

## Technical Skills

- **Frontend:** HTML, CSS, Vue.js, Nuxt.js, SASS, TailwindCSS, UnoCSS, Pinia,
- **Backend:** Firebase, Nest.js
- **Programming Languages:** Python, JavaScript, C++, TypeScript
- **Tools:** Linux, Git, Figma, WordPress, Netlify, NuxtHub, Vim (Neovim)

## Experience

### Web Developer, 57Colleges

June 2022 - August 2023

[57colleges.com](https://57colleges.com)

- Crafted and optimized responsive web applications using WordPress, HTML, CSS, JavaScript, and Bootstrap; ensured seamless performance across 10+ major browsers while achieving a user satisfaction score of over 90% for design reliability.
- Implemented scalable fullstack solutions with ASP.NET Core MVC, supporting dynamic content and secure data management.
- Collaborated with cross-functional teams—including designers, project managers, and QA engineers—to deliver projects on time.
- Optimized website performance through code refinement and best practices, resulting in faster load times and improved user engagement.
- Enhanced user interfaces with modern design principles, leading to measurable improvements in customer satisfaction.
- Led troubleshooting and debugging efforts that reduced system downtime and improved overall application stability.

## Projects

### Sozler.im - [sozler.im](https://sozler.im)

- Developed a comprehensive quote-sharing platform using Vue.js and UnoCSS, ensuring a fully responsive design.
- Collaborated with Huseyn Guliyev (Optimax Software) and Tahir Mahmudzade to integrate dynamic features and optimize performance for a seamless user experience.

### Post-App - [postapp-v1.web.app](https://postapp-v1.web.app)

[🐙 github.com/aligu7/Post-App](https://github.com/aligu7/Post-App)

- Designed and developed a full-stack social networking application using Vue.js and Firebase, featuring real-time updates and dynamic content.
- Integrated secure user authentication, social sharing, and intuitive UI components to enhance user engagement.

### Dr. Andrews Plastic Surgery

[🐙 github.com/aligu7/daps\\_simulation](https://github.com/aligu7/daps_simulation)

- Led the development of an interactive simulation tool for a plastic surgery practice, focusing on secure data handling.
- Utilized Nuxt.js, UnoCSS, and Firebase to implement real-time visualizations that improved patient engagement.

### Vagif Guliyev's Website - [guliyev.com](https://guliyev.com)

[🐙 github.com/aligu7/vagifguliyev\\_nuxt](https://github.com/aligu7/vagifguliyev_nuxt)

- Developed a dynamic personal portfolio website using Nuxt.js and Nuxt Content CMS, featuring interactive content.
- Implemented SEO optimizations and responsive design strategies that enhanced online visibility and user experience.

## Certifications

**IELTS - Overall Band Score: 7.0** (Listening: 8.5, Reading: 5.5, Writing: 7.0, Speaking: 6.5)

*British Council 23/8/2023*

## Testimonials

[🌐](#) My LinkedIn Recommendations: <https://www.linkedin.com/in/ali-guliyev-bb7211219/details/recommendations>

- "To work with Ali for our Iowa plastic surgery practice has been an absolute game-changer. We needed a robust full-stack website that would articulate all of our services and offer a safe and convenient way for our patients to engage with them. Ali did all this and much more within just two weeks!"  
— Aidan Andrews, MS Computer Science Candidate, Entrepreneur and Researcher at UIUC
